SALE No. 49

**International Numismatic Society
Convention
Marriott Crystal Gateway Hotel
Arlington, Virginia**

OCTOBER 29-30, 1982

Lot Inspection

All lots will be on view during normal bourse hours of the INS Convention prior to their being auctioned. The Convention hours are Friday: Noon to 7 p.m.; Saturday: 10 a.m. to 7 p.m.; and Sunday: 10 a.m. to 5 p.m.

Lots may be inspected in our East Lansing office by appointment only during the two weeks preceding the sale.

Convention Hotel Reservations

Accommodations at the Marriott Crystal Gateway Hotel at convention rates are available by advance booking prior to October 15th. We highly recommend advance booking at the reduced convention rate which is \$60 per day for a double. The regular list rate is \$115 per day. The local phone number of the Hotel is (703) 920-3230. Reservations can be placed through this number as well as phone bids on the days of the sale. We believe the convention facilities and the close proximity to the National Airport of this new hotel will be most pleasing. We expect this hotel to become the location for most future coin shows in the Washington D.C. area.

Lot Information

If you wish additional information on any lot, please call or write. Modest estimates are published for your convenience. Prices may go higher or lower.

We can furnish photos of nearly all lots upon request at a charge of \$1.00 per item.

Prices realized are available approximately four weeks after the closing date at \$3.00 each or \$15.00 by annual subscription (Overseas subscriptions \$20.00). An annual subscription will include a minimum of five catalogs. (Bound copies of our 1981 catalogs including prices realized are available at \$20.00 for the entire year).

We are pleased to present our third INS Auction which is in conjunction with the 7th INS Convention. The convention site is conveniently located near the Washington National Airport.

This sale offers a wide range of material touching on most areas of coin collecting. More medieval coins appear in this catalog than has been typical in our past sales. More than 120 consignors are represented in this sale.

We are sending out an extra 1500 catalogs to our expanded mailing list. If you cannot attend this sale personally, do make an attempt to submit your mail or phone bids in sufficient time to be executed. We will take the utmost care in posting your bids. From our experience, approximately 20 to 25% of the lots sold to mail bidders are sold below the maximum limit we receive. Additionally, about 80% of all lots are purchased by mail bidders. In terms of overall prices realized, 10% sell at top wholesale while another 10% realize significantly higher than we would expect. The remaining 80% sell within plus or minus 10% of current retail levels assuming that they are not impaired or of low grade.

This sale marks my 10th year as a numismatic auctioneer. Many changes in my business and in collecting have occurred in that time. Useful reference material has become more available. Prices have changed dramatically. What started as a hobby for me in 1945, has become a solid, successful business. We still have many of our early customers on our active mailing list who are bidders, subscribers and now consignors. I want to thank my clients and staff for their continued support. My wife, Marianne, is a silent partner in the business. Besides being involved in all the long term business decisions, she does all the graphic artwork and posts bids. My chief assistant, Julie Gerszewski, has been with the firm for more than seven years. She handles much of the paper work and typesetting. In total, a small part time business modeled after Jess Peters' in its prime has grown to eight employees with a respected reputation around the world. My main thrust will continue to be diversified numismatic auctions featuring high quality cataloging and accurate grading.

After our upcoming November sale, we intend to take a short breather. We probably will do three sales this coming Spring. We are especially looking for quality consignments. Material that would do particularly well at this time would be coins from Italy, Norway, Switzerland, Transylvania and Venezuela. Consignments are already coming in for our 1983 auctions.

For bidders who want to establish a limit or budget how much they want to spend in any one sale, I would suggest that the sum total of their bids does not exceed three to four times their limit. We are willing to try to accomodate our bidders in participating successfully within their means. However, submitting numerous low bids is counter productive for everyone. We are not interested in attracting junk lots or junk bids. Please bear in mind that our minimum commission fee per lot is \$15. This is designed to keep out the low valued lots and necessitates rejecting very low bids.

Our November sale has many exciting lots. In part, it will contain the copper and silver ancient collection of Juan Fragnoli of Buenos Aires. Additionally, there is a nice range of crowns, U.S. gold, Standing Liberty Quarters, Canadian, etc.

Several collectors and potential consignors have asked me to evaluate the long term market on coins. I personally plan on being active in the auction field twenty years from now. With some exceptions I do not see much change in numismatic prices beyond those related to possible inflation, bullion prices, fads, international exchange rates and currency restrictions. These exceptions would relate to new research being published expanding areas for more systematic collecting.

Coin collecting can be an enjoyable hobby but not necessarily a dependable investment for the general collector. For substantial changes in prices to occur other than due to the above factors, there must be an expanded collector base. Ideally, this is created by young collectors who continue their interest and possibly develop into advanced collectors over the years or by collectors changing their areas of interest. Where is this influx of new coin collectors? One hardly can find any interesting coins in circulation with which to start a collection. The young beginning collectors concentrate on stamps, baseball cards, arcade tokens and bottle caps. So-called coin investors of recent years may well find no true increase in the value of their holdings even assuming accurate grading. For example, who will comprise the expanded collector retail market twenty years from now particularly in U.S. coins? Frankly, now may well be as good as time as any for a seller.
